Strong Problem Solving, Analytical Thinking, Cross Functional Collaboration, Team Leadership, Fast Bilingual Typing (English and Sinhala).

ACADEMIC PROJECTS & CORE IMPLEMENTATION

IT Project Developer & Systems Analyst

- Collaborated within a 4 member student team applying Scrum methodologies to develop a comprehensive campus management system.
- Executed specific requirements for an individual module by designing and implementing a Task and Countdown Manager from scratch, utilizing React for the front end and Spring Boot for the backend logic.
- Configured local environments, integrated database connections, and executed automated testing scripts using Python and Playwright to ensure optimal code quality and system reliability.

PROFESSIONAL EXPERIENCE

Dinuka Book Shop

Present

Operations & IT Support Manager

- Manage daily operational processes and technical workflows for a trusted local retail business, continuously identifying areas for process improvement.
- Successfully established and currently maintain the local network connecting multiple desktop computers, heavy duty photocopy machines, and commercial printers.
- Analyze user needs to provide prompt software and hardware troubleshooting, delivering immediate resolutions to ensure business continuity.

PROFESSIONAL CERTIFICATIONS

Verified Online Credentials (15 plus Certifications)

- Completed over 15 industry recognized online professional development courses covering a diverse range of Information Technology, software development, quality assurance, agile methodologies, and professional disciplines.
- All earned badges and official certificates are fully detailed and verifiable via LinkedIn profile.

STAKEHOLDER ENGAGEMENT & PUBLIC RELATIONS

Independent Networking & Professional Brand Building

- Demonstrated excellent interpersonal and communication skills by actively engaging with high profile business leaders, veteran entrepreneurs, and prominent political figures (documented via personal portfolio).
- Built professional relationships with corporate leaders across tech, media, and ecommerce sectors, strengthening the ability to communicate complex technical concepts clearly to non technical stakeholders.
